Student ID	230042136, 230042149
Title	IUT Laundry Management System
Brief Description	Allows forstudents, laundry staff, and laundry managers to manage laundry requests, manage student laundry accounts, track orders, and handle payments in a centralized system.

Serial	FR ID	Functional Requirement	User Story ID	US Title	As a (precise role)	I want (requirement)	So that (completion condition)	User Story	Acceptance Criteria	Priority	Status
1	FR_1	The system shall allow students and faculty members to submit registration requests by providing their required information.	US_1	Submit student's registration information	Student	to submit my student ID, room number, and residential status	I can register for laundry services	As a Student, I want to submit my student ID, room number, and residential status so that I can register for laundry services.	- Student registration requires Student ID. - Student registration requires room number. - Student registration requires residential/non-residential status. - Registration requests remain pending until verified. - Students receive notification after approval or rejection.	High	In Progress
2	FR_1	The system shall allow students and faculty members to submit registration requests by providing their required information.	US_2	Submit faculty's registration information	/	to submit my personal information	I can register for laundry services	As a Faculty Member, I want to submit my personal information so that I can register for laundry services.	- Faculty registration requires mandatory personal information. - Registration requests remain pending until verified. - Faculty Members receive notification after approval or rejection.	High	In Progress
3	FR_2	The system shall allow the Laundry Manager to verify the submitted information before activating the account.	US_3	Verify information	Laundry Manager	to review registration requests	only verified customers receive accounts	As a Laundry Manager, I want to review registration requests so that only verified customers receive accounts.	- Laundry Manager can approve or reject requests. - Laundry Manager sends Students and Faculty Members notification regarding their account's approval or rejection.	High	In Progress
4	FR_3	The system shall allow verified users to securely log into their accounts using valid credentials.	US_4	Login student	Student	to log into my account securely	I can access laundry services	As a Student, I want to log into my account securely so that I can access laundry services.	- Only verified accounts can log in. - Invalid credentials are rejected. - Successful login redirects users to the dashboard. - Passwords are stored securely. - Users can log out successfully.	High	In Progress
5	FR_3	The system shall allow verified users to securely log into their accounts using valid credentials.	US_5	Login for faculty	Faculty Member	to log into my account securely	I can manage my laundry requests	As a Faculty Member, I want to log into my account securely so that I can manage my laundry requests.	- Only verified accounts can log in. - Invalid credentials are rejected. - Successful login redirects users to the dashboard. - Passwords are stored securely. - Users can log out successfully.	High	In Progress
6	FR_4	The system shall allow customers to submit laundry requests by specifying garment quantity and selecting either Wash & Iron or Iron Only service.	US_6	Specify garments number	Student	to specify the number of garments	the laundry staff knows how many clothes I submitted	As a Student, I want to specify the number of garments so that the laundry staff knows how many clothes I submitted.	- Users can enter garment quantity. - Users can choose Wash & Iron. - Users can choose Iron Only. - Laundry request is saved successfully. - Users receive confirmation after submission.	High	To Do
7	FR_4	The system shall allow customers to submit laundry requests by specifying garment quantity and selecting either Wash & Iron or Iron Only service.	US_7	Specify service type	Student	to choose Wash & Iron or Iron Only	I receive the service I need	As a Student, I want to choose Wash & Iron or Iron Only so that I receive the service I need.	- Users can enter garment quantity. - Users can choose Wash & Iron. - Users can choose Iron Only. - Laundry request is saved successfully. - Users receive confirmation after submission.	High	To Do
8	FR_4	The system shall allow customers to submit laundry requests by specifying garment quantity and selecting either Wash & Iron or Iron Only service.	US_8	Specify laundry service	Faculty Member	to select my preferred laundry service	my garments are processed correctly	As a Faculty Member, I want to select my preferred laundry service so that my garments are processed correctly.	- Users can enter garment quantity. - Users can choose Wash & Iron. - Users can choose Iron Only. - Laundry request is saved successfully. - Users receive confirmation after submission.	High	To Do
9	FR_5	The system shall allow laundry staff to register each garment and assign a unique identification number.	US_9	Assign laundry tracking	Laundry Manager	to register every garment	each item is tracked individually	As a Laundry Staff Member, I want to register every garment so that each item is tracked individually.	- Each garment receives a unique identification number. - Duplicate garment IDs are not allowed. - Registered garments are stored in the database. - Garment details are linked to the corresponding laundry request.	High	To Do
10	FR_5	The system shall allow laundry staff to register each garment and assign a unique identification number.	US_10	Assign laundry IDs	Laundry Manager	every garment to have a unique ID	garments are never confused	As a Laundry Staff Member, I want every garment to have a unique ID so that garments are never confused.	- Each garment receives a unique identification number. - Duplicate garment IDs are not allowed. - Registered garments are stored in the database. - Garment details are linked to the corresponding laundry request.	High	To Do
11	FR_6	The system shall track garments through Collection, Washing, Drying, Ironing, Folding, and Delivery stages and allow customers to view the current status.	US_11	Check laundry status	Student	to check my laundry status	I know when my clothes will be ready	As a Student, I want to check my laundry status so that I know when my clothes will be ready.	- Laundry status includes Collection. - Laundry status includes Washing. - Laundry status includes Drying. - Laundry status includes Ironing. - Laundry status includes Folding. - Laundry status includes Delivery. - Customers can view the latest status.	High	To Do
12	FR_6	The system shall track garments through Collection, Washing, Drying, Ironing, Folding, and Delivery stages and allow customers to view the current status.	US_12	Check processing progress	Faculty Member	real-time progress updates	I know the current processing stage	As a Faculty Member, I want real-time progress updates so that I know the current processing stage.	- Laundry status includes Collection. - Laundry status includes Washing. - Laundry status includes Drying. - Laundry status includes Ironing. - Laundry status includes Folding. - Laundry status includes Delivery. - Customers can view the latest status.	High	To Do
13	FR_6	The system shall track garments through Collection, Washing, Drying, Ironing, Folding, and Delivery stages and allow customers to view the current status.	US_13	Update garment status	Laundry Staff Member	to update garment status	customers receive accurate information	As a Laundry Staff Member, I want to update garment status so that customers receive accurate information.	- Laundry status includes Collection. - Laundry status includes Washing. - Laundry status includes Drying. - Laundry status includes Ironing. - Laundry status includes Folding. - Laundry status includes Delivery. - Staff can update status at each stage.	High	To Do
14	FR_7	The system shall allow customers to choose whether completed garments should be delivered or collected personally.	US_14	Select room delivery	Student	to choose room delivery	I do not need to collect my clothes	As a Student, I want to choose room delivery so that I do not need to collect my clothes.	- Users can select delivery. - Users can select self-collection. - Delivery preference is saved. - Staff can view customer delivery preference.	Medium	To Do
15	FR_7	The system shall allow customers to choose whether completed garments should be delivered or collected personally.	US_15	Select self-collection	Student	to collect my clothes myself	I can receive them directly	As a Student, I want to collect my clothes myself so that I can receive them directly.	- Users can select delivery. - Users can select self-collection. - Delivery preference is saved. - Staff can view customer delivery preference.	Medium	To Do
16	FR_7	The system shall allow customers to choose whether completed garments should be delivered or collected personally.	US_16	Select delivery option	Faculty Member	to choose delivery or self-collection	I can collect them according to my convenience	As a Faculty Member, I want to choose delivery or self-collection so that I can collect them according to my convenience.	- Users can select delivery. - Users can select self-collection. - Delivery preference is saved. - Staff can view customer delivery preference.	Medium	To Do
17	FR_8	The system shall verify that garments are delivered to the correct customer and allow customers to confirm receipt and garment completeness.	US_17	Verify customer identity	Laundry Staff Member	to verify customer identity before delivery	garments reach the correct owner	As a Laundry Staff Member, I want to verify customer identity before delivery so that garments reach the correct owner.	- Staff verifies customer identity before delivery. - System records delivery confirmation. - Customers can confirm garment completeness. - Delivery status changes to Completed after verification. - Delivery history is stored.	High	To Do
18	FR_8	The system shall verify that garments are delivered to the correct customer and allow customers to confirm receipt and garment completeness.	US_18	Verify garments	Student	to verify that all my garments are returned	no clothing is missing	As a Student, I want to verify that all my garments are returned so that no clothing is missing.	- Staff verifies customer identity before delivery. - System records delivery confirmation. - Customers can confirm garment completeness. - Delivery status changes to Completed after verification. - Delivery history is stored.	High	To Do
19	FR_8	The system shall verify that garments are delivered to the correct customer and allow customers to confirm receipt and garment completeness.	US_19	Verify delivery success	Faculty Member	to confirm successful delivery	delivery records remain accurate	As a Faculty Member, I want to confirm successful delivery so that delivery records remain accurate.	- Staff verifies customer identity before delivery. - System records delivery confirmation. - Customers can confirm garment completeness. - Delivery status changes to Completed after verification. - Delivery history is stored.	High	To Do
20	FR_9	The system shall allow customers to submit complaints regarding laundry services.	US_20	Report garment-related issues	Student	to report damaged or missing garments	the issue can be investigated	As a Student, I want to report damaged or missing garments so that the issue can be investigated.	- Customers can submit complaints. - Complaint includes description. - Complaint is linked to the related laundry request. - Complaint status is recorded. - Staff can review submitted complaints.	Medium	To Do
21	FR_9	The system shall allow customers to submit complaints regarding laundry services.	US_21	Report laundry quality issues	Faculty Member	to submit complaints regarding laundry quality	corrective action can be taken	As a Faculty Member, I want to submit complaints regarding laundry quality so that corrective action can be taken.	- Customers can submit complaints. - Complaint includes description. - Complaint is linked to the related laundry request. - Complaint status is recorded. - Staff can review submitted complaints.	Medium	To Do
22	FR_10	The system shall allow customers to request a rewash when garments are not washed properly and allow staff to manage rewash requests.	US_22	Request rewash	Student	to request a rewash	my clothes are cleaned properly	As a Student, I want to request a rewash so that my clothes are cleaned properly.	- Customers can submit rewash requests. - Rewash requests are linked to the original laundry request. - Staff can approve or reject rewash requests. - Approved garments re-enter the laundry workflow. - System records the outcome of each rewash request.	Medium	To Do
23	FR_10	The system shall allow customers to request a rewash when garments are not washed properly and allow staff to manage rewash requests.	US_23	Request another wash if unsatisfied	Faculty Member	to request another wash	I can request for another wash if the laundry quality is unsatisfactory	As a Faculty Member, I want to request another wash so that I can request for another wash if the laundry quality is unsatisfactory.	- Customers can submit rewash requests. - Rewash requests are linked to the original laundry request. - Staff can approve or reject rewash requests. - Approved garments re-enter the laundry workflow. - System records the outcome of each rewash request.	Medium	To Do
24	FR_10	The system shall allow customers to request a rewash when garments are not washed properly and allow staff to manage rewash requests.	US_24	Review rewash requests	Laundry Staff Member	to review rewash requests	approved garments can be processed again	As a Laundry Staff Member, I want to review rewash requests so that approved garments can be processed again.	- Customers can submit rewash requests. - Rewash requests are linked to the original laundry request. - Staff can approve or reject rewash requests. - Approved garments re-enter the laundry workflow. - System records the outcome of each rewash request.	Medium	To Do
25	FR_11	The system shall allow authorized staff to view, update, and manage customer information.	US_25	Update customer information	Laundry Staff Member	to update customer information	records remain accurate	As a Laundry Staff Member, I want to update customer information so that records remain accurate.	- Authorized staff can search customer records. - Authorized staff can edit customer information. - Unauthorized users cannot modify customer records. - Updated information is saved successfully.	Medium	To Do

Serial	FR ID	Functional Requirement	User Story ID	US Title	As a (precise role)	I want (requirement)	So that (completion condition)	User Story	Acceptance Criteria	Priority	Status
26	FR_11	The system shall allow authorized staff to view, update, and manage customer information.	US_26	Search and retrieve customer information	Laundry Manager	to search customer records	I can quickly retrieve customer information	As a Laundry Manager, I want to search customer records so that I can quickly retrieve customer information.	- Authorized staff can search customer records. - Authorized staff can edit customer information. - Unauthorized users cannot modify customer records. - Updated information is saved successfully.	Medium	To Do
27	FR_12	The system shall maintain a history of customers' laundry requests, deliveries, complaints, and rewash records.	US_27	View previous laundry requests	Student	to view my previous laundry requests	I can keep track of my laundry history	As a Student, I want to view my previous laundry requests so that I can keep track of my laundry history.	- Users can view previous laundry requests. - Delivery history is retained. - Complaint history is available. - Rewash history is maintained. - Historical records cannot be altered by unauthorized users.	Low	To Do
28	FR_12	The system shall maintain a history of customers' laundry requests, deliveries, complaints, and rewash records.	US_28	Review complaints and rewash requests	Faculty Member	to review previous complaints and rewash requests	I can monitor their resolution	As a Faculty Member, I want to review previous complaints and rewash requests so that I can monitor their resolution.	- Users can view previous laundry requests. - Delivery history is retained. - Complaint history is available. - Rewash history is maintained. - Historical records cannot be altered by unauthorized users.	Low	To Do
29	FR_12	The system shall maintain a history of customers' laundry requests, deliveries, complaints, and rewash records.	US_29	View historical laundry records	Laundry Manager	to access historical laundry records	I can perform audits and generate reports	As a Laundry Manager, I want to access historical laundry records so that I can perform audits and generate reports.	- Users can view previous laundry requests. - Delivery history is retained. - Complaint history is available. - Rewash history is maintained. - Historical records cannot be altered by unauthorized users.	Low	To Do
